TREE REMOVAL LOCATION PLAN

Mark the sketch to show the location of the tree(s) being removed, any trees that will remain and any trees being planted to meet the tree requirement:

NUMBER OF CANOPY TREES REQUIRED PER LOT

Canopy tree requirements. Each single-family or duplex lot shall provide canopy trees as follows:

- A minimum of two canopy trees for lots 6,000 square feet or less.
- A minimum of three canopy trees for lots between 6,001 and 10,000 square feet.
- A minimum of four canopy trees for lots between 10,001 to 15,000 square feet.
- A minimum of five canopy trees for lots between 15,001 and 43,560 square feet.
- A minimum of eight canopy trees for lots larger than one acre up to two acres.

*****Street trees. Street trees may not count towards the number of trees required for a lot.**

TREE MATRIX RESIDENTIAL

Type	Where Placed	Minimum Caliper Size
Canopy tree	Between sidewalk & curb-street tree	3.0" caliper, measured 12" above final planting grade
Canopy tree	In front of house	3.0" caliper, measured 12" above final planting grade
Canopy tree	In rear of house	2.5" caliper, measured 12" above final planting grade
Understory	In front of house	2.5" caliper, measured 12" above final planting grade
Understory	In rear of house	2.5" caliper, measured 12" above final planting grade
Ornamental	In front of house	2.5" caliper, measured 12" above final planting grade
Ornamental	In rear of house	2.5" caliper, measured 12" above final planting grade
Multitrunk	In front of house	4" total combined caliper of trunks
		No single trunk to measure less than 1" in caliper measured 12" above final planting grade
Multitrunk	In rear of house	4" total combined caliper of trunks
		No single trunk to measure less than 1" in caliper measured 12" above final planting grade

City of Groveland APPROVED CANOPY TREE LIST
